

USQC Company Profile and Services Offered

United Safety Quality Council

The Best Organization for Safety & Quality

About United Safety and Quality Council (USQC)

United Safety and Quality Council (USQC) is a globally recognized certification body with over 60 years of experience in the fields of testing, calibration, training, and ISO certification. Founded in 1953 and officially rebranded as USQC in 1998, the organization has grown from a local quality consultancy into a worldwide certification leader.

USQC is the leader organization providing training, consultative services, and third-party certifications and audits. In many industries, we are the experts you need including Oil & Gas, Maritime & Shipping, Healthcare, and many more. We create

specially tailored systems to fit your business and training requirements as per the highest standards, complying with American and international standards.

Our Mission

To elevate global safety and quality standards by providing accessible, trustworthy, and performance-driven certification, training, and consulting services.

Our Vision

To be a global catalyst for continuous improvement, helping organizations build safer, smarter, and more sustainable systems.

Legal Status and Memberships

- USQC is recognized by USA government Michigan state under entity ID# 802058193
- Member of NFPA (National Fire Protection Association)
- Member of NSC (National Safety Council)
- BBB Accredited organization

Our Journey Through the Years

USQC's evolution spans over six decades of continuous growth and expansion:

1953 - The Beginning: Started in the United States with testing, calibration, and certification services, establishing a foundation in quality assurance.

1998 - Transformation: Officially became USQC, focusing specifically on Quality Management and ISO consultation services, marking a strategic shift toward international standards.

2009 - Accreditation Achievement: Gained ASC (Accreditation Services for Conformity Assessment) accreditation, validating our commitment to international quality standards.

2010 - National Recognition: Received ANSI (American National Standards Institute) local recognition, further establishing our credibility in the certification industry.

2015 - Global Expansion: Decided to widen our business operations to reach the global market, establishing operational presence across multiple continents.

Today: USQC continues to grow with operational presence in over 15 countries and counting, serving diverse industries with specialized certification and training solutions.

Why Choose USQC?

Key Advantages

60+ Years of Experience: Extensive experience and expertise in the quality business, providing deep industry knowledge and proven methodologies.

Global Recognition: Ethically grounded and globally recognized certification body ensuring certificates are credible and impartial worldwide.

Expert Auditors: Highly qualified auditors who are top-notch professionals in their respective fields, ensuring thorough and accurate assessments.

Fast Certification: Efficient certification processes with real-time online evaluation systems, reducing time-to-market for our clients.

Industry-Specific Support: Practical, industry-specific implementation support providing tailored solutions for unique business needs.

Tangible Benefits: Our services improve employee motivation, performance, and market access, delivering measurable value to organizations.

Affordable & Transparent Pricing: Competitive pricing structure with no hidden costs, making quality certification accessible to organizations of all sizes.

Multilingual Experts: Our team includes multilingual professionals capable of serving diverse global markets effectively.

AI-Powered Tools: Integration of modern technology to enhance the certification and training experience.

Global Presence

USQC has established operational presence across multiple continents, serving clients in:

North America

- **United States** (Head Office: Michigan, Branch Office: New Jersey)

Middle East & Africa

- **Turkey** - Regional operations center

- **Jordan** - Certification and training services
- **Iraq** - Specialized industry certifications
- **Kuwait** - Oil & Gas sector expertise
- **Egypt** - Manufacturing and logistics
- **Saudi Arabia (KSA)** - Energy sector focus
- **United Arab Emirates (UAE)** - Business hub operations

Asia-Pacific

- **India** - IT and manufacturing services
- **Malaysia** - Maritime and shipping expertise
- **Vietnam** - Manufacturing and export industries
- **Indonesia** - Natural resources and manufacturing
- **Nepal** - Emerging market services
- **Bangladesh** - Textile and manufacturing focus

Europe

- **United Kingdom** - European operations
- **Lithuania** - Baltic region services

Continuing Expansion: USQC is actively expanding its global footprint to serve more markets and industries worldwide.

Industries We Serve

USQC provides specialized solutions crafted to tackle industry-specific challenges across diverse sectors:

Maritime & Logistics

Comprehensive certification and training services for shipping companies, port operations, and logistics providers. Our maritime expertise includes ISM Code compliance, port state control preparation, and maritime safety management systems.

Oil & Gas Industry

Specialized services for upstream, midstream, and downstream operations including safety management systems, environmental compliance, and operational excellence programs tailored for the energy sector.

Healthcare & Medical Devices

ISO 13485 certification for medical device manufacturers, healthcare quality management systems, and compliance with regulatory requirements for pharmaceutical and healthcare organizations.

Information Technology & Project Management

IT service management certification, information security management systems, and project management standards for technology companies and service providers.

Translation & Language Services

ISO 17100 certification for translation services, ISO 18587 for post-editing services, and quality management systems specifically designed for language service providers and localization companies.

Manufacturing & Engineering

Quality management systems for manufacturing operations, automotive industry certifications (IATF 16949), and engineering service certifications across various industrial sectors.

Construction & Engineering

Safety management systems for construction companies, environmental management for engineering projects, and quality assurance for construction and infrastructure development.

Food & Beverage Industry

Food safety management systems (ISO 22000), HACCP implementation, and religious certifications (Halal/Kosher) for food manufacturers and processors.

Education & Training Organizations

ISO 21001 certification for educational institutions, training provider certifications, and quality management systems for academic and professional development organizations.

Government & NGOs

Public sector quality management, social responsibility certifications, and governance frameworks for government agencies and non-governmental organizations.

Accreditations and Quality Assurance

International Accreditations

ASC Accreditation: USQC is accredited by ASC (Accreditation Services for Conformity Assessment) under: - **ISO 17021** - Management system certification bodies - **ISO 17024** - Personnel certification bodies - **ISO 17065** - Product certification bodies

ANSI Recognition: Recognized by the American National Standards Institute (ANSI) for local operations and standards compliance.

Quality Policy

USQC's commitment to excellence is demonstrated through our comprehensive quality policy. It is our aim to be the foremost certification body for project, program, risk, and IT Service Management certification, providing certification of training and consultancy providers, as well as examination materials to certify individuals.

Our policy ensures that all operations are performed with the highest integrity and quality standards. We are fully committed not only to meeting the standards to which we are accredited but to exceeding them through a continual process of monitoring all activities and introducing improvements wherever possible.

Ethics and Standards Board

USQC has established an independent Ethics and Standards Board to ensure the independence and impartiality of our certification activities. This board:

- Monitors all certification activities independently
- Provides safeguards for independence and impartiality
- Has the authority to require changes to maintain standards
- Can escalate concerns to accreditation bodies if necessary

Operational Standards

USQC operates in accordance with international standards: - **ISO/IEC 17065:2012** - Product certification body requirements - **ISO/IEC 17024:2012** - Personnel certification body requirements - **ISO/IEC 17021:2015** - Management system certification body requirements

Certification Process

USQC follows a systematic and transparent certification process designed to ensure thorough evaluation while maintaining efficiency:

Step 1: Application Submission & Proposal

- Initial consultation to understand client requirements
- Determination of certification scope and timeline
- Generation of detailed proposal with transparent pricing
- **Duration:** 1-2 business days

Step 2: Registration and Agreement

- Formal acknowledgment of application
- Organization registration in USQC system
- Contract signing and agreement finalization
- **Duration:** 2-3 business days

Step 3: Documentation Review

- Comprehensive review of management system documentation
- Gap analysis and readiness assessment
- Feedback and recommendations for improvement
- **Duration:** 1-2 weeks

Step 4: Initial Audit (Stage 1)

- On-site or remote documentation audit
- Verification of system implementation readiness
- Identification of any major non-conformities
- **Duration:** 1-2 days

Step 5: Certification Audit (Stage 2)

- Comprehensive process audit and evaluation
- Assessment of system effectiveness and compliance
- Detailed findings and recommendations
- **Duration:** 2-5 days depending on scope

Step 6: Certificate Issuance

- Review of audit findings by certification committee
- Resolution of any minor non-conformities
- Certificate issuance within 8 weeks of successful audit
- **Validity:** 3 years

Step 7: Surveillance Audits

- Annual surveillance audits to verify continued compliance
- Monitoring of system maintenance and improvement
- Ongoing support and guidance

- **Frequency:** Annual

Step 8: Recertification

- Comprehensive recertification audit every 3 years
 - Full system re-evaluation and renewal
 - Continuous improvement assessment
 - **Timeline:** 6 months before certificate expiry
-

Current Performance Metrics

Based on our latest operational data:

- **1,008 Projects Completed** - Successfully delivered certification and training projects
 - **76% Positive Feedback** - Client satisfaction rate across all services
 - **1,047 Services Requested** - Active demand for our certification and training services
 - **\$191 Average Cost Per Hour** - Competitive pricing for professional services
