

# USQC Made in USA Success

---

## Manufacturing Reshoring Consulting & Compliance Services

---

---

### Bring Your Manufacturing to the United States with Confidence

Many businesses are reshoring manufacturing to the United States — either moving production from overseas or transitioning from contract manufacturers to building their own operations. While this is a powerful step toward growth, quality control, and market credibility, it comes with critical regulatory, compliance, and workforce challenges.

At **USQC** (United Safety & Quality Council), we provide end-to-end consulting to help your business establish or expand U.S.-based manufacturing operations, achieve compliance with federal and state regulations, and gain the certifications needed to compete in the global marketplace.

---

### Why Choose USQC for Your U.S. Manufacturing Launch?

---

- ✓ **60+ years of expertise** in certification, compliance, and operational excellence
- ✓ **ASC Accredited** for ISO 17021, 17024, and 17065
- ✓ **Proven track record** supporting manufacturers in 15+ countries across multiple

industries

✓ **Practical, hands-on consulting** to help you succeed in the American market

---

## Our Core Services for U.S. Manufacturing Setup

---

### 1. Regulatory Compliance Guidance

- FDA, OSHA, EPA, and state-level regulations
- Industry-specific frameworks (medical devices, pharmaceuticals, food & beverage, aerospace, defense, IT, and more)
- Understanding trade, import/export, and labeling requirements

### 2. Standards & Certifications

- **ISO 9001** (Quality Management)
- **ISO 14001** (Environmental Management)
- **ISO 45001** (Occupational Health & Safety)
- **ISO 27001** (Information Security)
- **ISO 13485** (Medical Devices)
- **GMP, HACCP**, and industry-specific compliance standards

### 3. Team Building & Training

- Hiring strategies for skilled U.S. manufacturing talent
- Training programs for ISO compliance, safety, and quality
- Auditor training & professional development for internal teams

### 4. Operational Setup & Consulting

- Facility layout and equipment validation (IQ, OQ, PQ)
- Supply chain evaluation and vendor qualification
- Process validation & continuous improvement planning

- Lean manufacturing and Six Sigma integration

### 5. Third-Party Auditing & Certification

- Independent audits for compliance and certification readiness
- Gap analysis and corrective action planning
- Calibration and testing services

---
